

## [Carbon Emission Criteria 2013](#)

### [PwC Independent Limited Assurance Report 2013](#)

PwC has been appointed as an independent third-party assurance provider. They has assured Scope 1 and Scope 2 GHG emissions calculated using data collected from properties over 10,000 square feet, classified as “GEMS”. The assured GEMS emissions are used to extrapolate a scaled up total, representing the Group. This reporting process is explained within the Standard Chartered Carbon Emission Criteria 2013.
